Forwarding a copy of letter
No. 2580 of 8th ult: from the
District Medical and Sanitary
Officer, Bangalore Dist: together
with a copy of its enclosures
re the progress of inoculation
in the Chennapatna town

Letter o. 2580 dated the 8th. October 1907 from the District Medical and San:Officer, Bangalore to the Senior Surgeon and San:Commr. Bangalore.

I have the honor to submit a statement of inoculation performed in Channapatna town. It is gratifying to note hat the ahomedans have great faith in it and many who were inoculated only a few days ago desired to be re-inoculated. It does not seem to find favor with the Hindus and the few Hindus that were inoculated, were mostly Holeya who owing to the difficulty of camping out for want of place whereon to build and materials for the sheds. I had to resort to a threat of forcible evacuation if they did not get themselves inoculated. Thus I was able to inoculate a few adult males and all the children in Holigere.

I have to note in this connection the apathy of the local Amildar who does not seem to realize his responsability. He never cared to help me in the operation or consult me in plague measures. I would have inoculated more people if he had only taken any interest in the matter and realize the duty he owes to a District Officer.
